

# The Journal

Volume 13/2, December 2021

---

A peer-reviewed, open-access publication of the  
R Foundation for Statistical Computing

## Contents

Editorial . . . . . 4

### Discussion Article

Software Engineering and R Programming: A Call for Research . . . . . 6  
We Need Trustworthy R Packages . . . . . 15  
The R Developer Community Does Have a Strong Software Engineering Culture . . . 18  
The R Quest: from Users to Developers . . . . . 22  
Rejoinder: Software Engineering and R Programming. . . . . 25

### Contributed Research Articles

g2f as a Novel Tool to Find and Fill Gaps in Metabolic Networks . . . . . 28  
lg: An R package for Local Gaussian Approximations. . . . . 38  
Estimating Social Influence Effects in Networks Using A Latent Space Adjusted Approach in R . . . . . 57  
survidm: An R package for Inference and Prediction in an Illness-Death Model . . . 70  
Multiple Imputation and Synthetic Data Generation with NPBayesImputeCat . . . . 90  
msae: An R Package of Multivariate Fay-Herriot Models for Small Area Estimation. . 111  
cat.dt: An R package for fast construction of accurate Computerized Adaptive Tests using Decision Trees . . . . . 123  
A GUIDed tour of Bayesian regression . . . . . 135  
StratigrapherR: Concepts for Litholog Generation in R . . . . . 153  
dad: an R Package for Visualisation, Classification and Discrimination of Multivariate Groups Modelled by their Densities . . . . . 179  
NGSSEML: Non-Gaussian State Space with Exact Marginal Likelihood . . . . . 208  
BayesSenMC: an R package for Bayesian Sensitivity Analysis of Misclassification. . . 228  
PAsso: an R Package for Assessing Partial Association between Ordinal Variables . . 239  
bcmixed: A Package for Median Inference on Longitudinal Data with the Box-Cox Transformation . . . . . 253  
diproperm: An R Package for the DiProPerm Test . . . . . 266  
A Unifying Framework for Parallel and Distributed Processing in R using Futures . . 273

MatchThem:: Matching and Weighting after Multiple Imputation . . . . .	292
EMSS: New EM-type algorithms for the Heckman selection model in R . . . . .	306
Analysis of Corneal Data in R with the rPACI Package . . . . .	321
MAINT.Data: Modelling and Analysing Interval Data in R . . . . .	336
Robust and Efficient Optimization Using a Marquardt-Levenberg Algorithm with R Package marqLevAlg . . . . .	365
DRHotNet: An R package for detecting differential risk hotspots on a linear network .	380
tramME: Mixed-Effects Transformation Models Using Template Model Builder . . .	398
miRecSurv Package: Prentice-Williams-Peterson Models with Multiple Imputation of Unknown Number of Previous Episodes . . . . .	419
An R package for Non-Normal Multivariate Distributions: Simulation and Probability Calculations from Multivariate Lomax (Pareto Type II) and Other Related Distributions	427
CompModels: A Suite of Computer Model Test Functions for Bayesian Optimization .	441
spfilteR: An R package for Semiparametric Spatial Filtering with Eigenvectors in (Generalized) Linear Models. . . . .	450
SIQR: An R Package for Single-index Quantile Regression . . . . .	460
mgee2: An R package for marginal analysis of longitudinal ordinal data with misclas- sified responses and covariates. . . . .	471
A New Versatile Discrete Distribution. . . . .	485
Automatic Time Series Forecasting with Ata Method in R: ATAforecasting Package .	507
PASSED: Calculate Power and Sample Size for Two Sample Tests. . . . .	542
spNetwork: A Package for Network Kernel Density Estimation . . . . .	561
bssm: Bayesian Inference of Non-linear and Non-Gaussian State Space Models in R. .	578
openSkies - Integration of Aviation Data into the R Ecosystem . . . . .	590
Generalized Linear Randomized Response Modeling using GLMMRR . . . . .	600
Visual Diagnostics for Constrained Optimisation with Application to Guided Tours .	624
volesti: Volume Approximation and Sampling for Convex Polytopes in R . . . . .	642
Elliptical Symmetry Tests in R . . . . .	661
The vote Package: Single Transferable Vote and Other Electoral Systems in R. . . . .	673
RPESE: Risk and Performance Estimators Standard Errors with Serially Dependent Data . . . . .	697
RobustBF: An R Package for Robust Solution to the Behrens-Fisher Problem . . . . .	713

## News and Notes

Changes in R . . . . .	734
Changes on CRAN . . . . .	738
News from the Bioconductor Project . . . . .	741
News from the Forwards Taskforce . . . . .	742
R Foundation News . . . . .	745

The R Journal is a peer-reviewed publication of the R Foundation for Statistical Computing. Communications regarding this publication should be addressed to the editors.
